Ashley Norton's Sand Cast Bronze Hooks collection includes the Whale Hook in Dark Bronze option. (Ashley Norton)

Architectural hardware manufacturer Ashley Norton has launched the Sand Cast Bronze Hooks collection for bathrobes, towels, hats, coats or keys. From the simple J Hook and sleek Angular Hook to the rugged Ox Hook and the whimsical Line and Dot Hook, the functional-yet-decorative hardware fits a range of spaces.

Sand Cast from art-grade bronze, the collection includes options with back plates, such as the Plated Hook (available with two or four hooks) and the ergonomic Plated Peg Hook. Among the streamlined yet sturdy designs are the Rivet Hook, J Hook and Angular Hook. The Line and Dot Hook looks like a game while the Whale Hook looks like a whale's tail. The Y-shaped Ox Hook resembles a steer's horns and the Cleat Hook reflects the nautical rope cleat used for securing boats. With its unique oval design, the Camilla Hook has soft edges with a bold demeanor.

Available in a choice of five different finishes including White Bronze, Natural Bronze, White Medium, Dark Bronze and Matt Black, the collection coordinates with Ashley Norton hardware and blends with existing door, window or cabinet hardware and accessories.
