UNLACQUERED BRASS

Unlacquered brass, also known as raw or uncoated brass, is a timeless finish beloved for its rich and warm color. This beautiful living finish adds character and charm to any room. This finish develops a graceful patina with age, creating a timeless and classic look. The original golden luster of unlacquered brass can be restored with the application of a surface polish.

Unlacquered finish available
in all Ashley Norton Solid
Brass cabinet hardware.
